

Addendum II

City of Morrow
Jester's Creek Reynolds Connection

Questions and Answers

Question:

1. Is a topo/boundary survey required for the site? If so do you have any detailed information on what you would want included in the survey and the necessary acreage?

City of Morrow Response

If we decide to only go to the wooded section, we do not need a topo or boundary survey since it doesn't disturb natural streams, trees etc. However if we do go beyond the wooded section we will require one.

Question:

2. Are there environmental surveying/investigations for jurisdictional creeks/wetlands required for this site as a part of our services?

City of Morrow Response

We are unsure, it maybe a question for the Clayton County Water Authority.
kosbey@ccwa.us

Question:

3. Do we know if the ditch adjacent to the site is considered a jurisdictional stream?

City of Morrow Response

The stream is considered state waters.

Question:

4. Is the City of Morrow the prime permitting jurisdiction? And if so, will a typical land disturbance permit be required?

City of Morrow Response:

The City of Morrow is the prime permitting jurisdiction. Yes, a land disturbance permit will be required.

Question:

5. Does the proposal need to include a bid bond?

City of Morrow Response:

The City only requires a performance bond.
