NATIONAL TAKE-BACK INITIATIVE

April 28, 2012

10:00 AM - 2:00 PM

The Drug Enforcement Administration (DEA) has scheduled another National Prescription Drug Take-Back Day which will take place on Saturday, April 28, 2012, from 10:00 a.m. to 2:00 p.m. This is a great opportunity for those who missed the previous events, or who have subsequently accumulated unwanted, unused prescription drugs, to safely dispose of those medications.

Americans that participated in the DEA's third National Prescription Drug Take-Back Day on October 29, 2011, turned in more than 377,086 pounds (188.5 tons) of unwanted or expired medications for safe and proper disposal at the 5,327 take-back sites that were available in all 50 states and U.S. territories. When the results of the three prior Take-Back Days are combined, the DEA, and its state, local, and tribal law-enforcement and community partners have removed 995,185 pounds (498.5 tons) of medication from circulation in the past 13 months.

“The amount of prescription drugs turned in by the American public during the past three Take-Back Day events speaks volumes about the need to develop a convenient way to rid homes of unwanted or expired prescription drugs,” said DEA Administrator Michele M. Leonhart. “DEA remains hard at work to establish just such a drug disposal process, and will continue to offer take-back opportunities until the proper regulations are in place.”
